Practice area

In no other legal field is the difference for a client between being right and prevailing as great as in tax law. With the Danish state as the opposing party, it requires deep experience, an uncompromising focus on quality, and close collaboration with the client and its day-to-day tax advisors to counterbalance the state's inexhaustible resources.

Plesner is the market leader in handling Danish tax cases. From the first negotiations with the tax authorities through the National Tax Tribunal to the courts and the Court of Justice of the European Union, we dedicate ourselves to conducting complex cases involving fundamental questions.

No other Danish law firm has prevailed in as many significant tax cases as Plesner. Since 2009 the International Tax Review has named Plesner "Denmark Tax Firm of the Year" 13 times.

Collaboration is at the heart of our way of working.

We assemble a team to handle each case and pool the necessary resources and experience. We prioritise active partner involvement at every stage of the process, and we work closely with clients and their day-to-day tax advisors.

Our ambition is to deliver uncompromising quality in every case we undertake. We perceive tax litigation as a creative process that necessitates innovative thinking. Similar issues in other parts of the legal system often provide the solution, making extensive knowledge of other legal areas essential. We focus on the details while keeping a broad perspective.

Advisory services are a matter of trust. We speak our minds. We take nothing for granted, testing all relevant premises and challenging conventional thinking.

Conducting and winning a tax case necessitates significant litigation experience. Plesner has the largest and most comprehensive team of highly specialised tax litigators. Our collective experience and track record provide the best basis for not just being right but also prevailing.
