

# Patent Law

## Practice area under IP Law

Plesner has Denmark's strongest team of patent law attorneys. Our patent law experience, our availability, our business insight and our ability to understand and challenge technology enable us to provide the best patent law advice in Denmark.

Every year, we advise on and handle a significant number of patent cases. For example, Plesner represents a large number of original manufacturers in the pharmaceutical area, including nine out of ten of the largest pharmaceutical companies in the world.

Our services cover all aspects of patent law, particularly:

- Cases concerning patent infringement and the validity of patents, utility models and SPCs
- Cases concerning the ownership of inventions, including the rights of employees, researchers and co-inventors
- Cases concerning the preservation of evidence
- Preparation and negotiation of agreements, including R&D agreements and licence agreements
- IP transactions
- IP risk management
- Strategic optimisation of global enforcement options
- The EU Unified Patent Court

Many of our cases extend across borders, and we therefore collaborate with leading foreign patent legal advisors on a regular basis. These collaborations give us access to an international network that enables us to act smoothly, even outside Denmark.
