Rasmus works with specialized data protection cases. Based on his past with the supervisory authority and at Technology & Security division at PwC, Rasmus is particularly specialized in security, including NIS2.

PRACTICE AREAS

Data Protection Law

Rasmus worked at the Danish Data Protection Agency for three years where he was a team leader for the Agency's data privacy unit. During his time with the DDPA, Rasmus wrote the Agency's preliminary notifications to the police and the DDPA's guidelines on fines.

Rasmus holds a law degree from the University of Copenhagen.

Rasmus promotes a supportive work environment, encouraging knowledge sharing and professional development among team members. It enhances efficiency by distributing workload, enabling more thorough research and preparation, and ensures that clients receive comprehensive and well-rounded legal representation.
