Nina is a director in our Technology & Outsourcing team.

PRACTICE AREAS

Commercial Contracts
Technology & Outsourcing

Nina advises on all aspects of technology-related contracts.

Nina has extensive experience of purchasing and procurement procedures and has been involved in drafting and negotiating all types of IT/technology-related contracts, including development contracts, implementation contracts and cloud contracts.

In recent years, Nina has been advising several prominent Danish businesses on the outsourcing of IT systems (infrastructure, operation, maintenance and application development) as well as management support functions (bookkeeping, debt collection and contact centre). Nina has thorough knowledge of the regulation of outsourcing in financial businesses and contributed to the development of the IT solution RISMAoutsourcing which supports financial businesses' management of outsourcing arrangements, procedurally as well as contractually.

In addition to this, Nina advises on issues relating to telecoms, including the regulation of telecoms operators — traditional telecoms operators as well as small car producers, airports, transport providers etc offering SIM cards or other network solutions to their customers.

Apart from this, Nina is involved in all matters relating to commercial contracts.

Nina is a certified IT Attorney by the Association of Danish IT Attorneys.
