Julie is a manager in our EU and Competition Law team, advising on all aspects of Danish and EU competition law.

**PRACTICE AREAS**

EU and Competition Law
Foreign Direct Investments

Julie has advised companies on a wide range of competition law issues, in particular merger control, but also horizontal and vertical agreements, and abuse of dominance.

Her previous experience as a Special Advisor at the Danish Competition and Consumer Authority has given her valuable insight into competition law enforcement and the authority's approach to complex competition law matters, including *inter alia* experience with legislative work such as amendments to the Danish Competition Act and the implementation of the rules on Unfair Trading Practices (UTP). This experience provides Julie with a strong understanding of both the regulatory perspective and the practical considerations relevant to clients navigating all kinds of competition law issues.

Julie holds a Master's degree in Law from the University of Copenhagen and has also studied at the University of Queensland in Australia as part of her Master's programme.
