Jannick is a senior economist in our Economic Analysis team.

PRACTICE AREAS

EU and Competition Law
Economic analyses

Jannick provides economic analyses and arguments in legal and regulatory matters.

Jannick has specialist expertise in economic analysis for litigation and abuse of dominance cases, with a particular focus on damages claims, and advises clients on the economic aspects of competition law. As part of his litigation work, Jannick has worked on a number of cases involving court-appointed expert assessments.

Jannick also plays a central role in merger control matters, advising clients from early assessment to clearance. His experience covers a wide range of industries, including insurance, transport, food and beverages, IT services and banking.

Jannick has a Master's degree in Economics from the University of Copenhagen.
