Jakob is an attorney-at-law in our IP and Life Science team working primarily with patent litigation.

PRACTICE AREAS

IP Law
Life Science - Regulatory & IP

Jakob focuses on proceedings concerning the enforcement of technical property rights (primarily patents), including injunctions and preservation of evidence. Jakob is a member of our UPC Task Force.

Jakob further advises undertakings on regulatory practices in relation to medicinal products, medical devices etc as a member of our regulatory Life Science group. Jakob also advises on IP agreements and life science agreements, for example licence agreements, research and development agreements and Material Transfer Agreements (MTAs).

Jakob has a Master's degree in Law from the University of Copenhagen.

All litigation, and especially patent litigation, require a focused and dedicated team approach working in close cooperation with both clients and other advisors. Our team excels in cooperation. We try to think out of the box and challenge the existing framework while still maintaining the high quality of work that is associated with Plesner's IP and Life Science team.

Ratings

2024 The Legal 500

Jakob Dolmer is recommended as regards Intellectual Property.

"Mikkel Vittrup is one of the new IP stars of the IP world, and Jakob Dolmer will be the future one"

"Peter-Ulrik Plesner, Mikkel Vittrup and Jakob Dolmer make a great IP litigation team combining extensive IP and litigation knowledge with strong technical understanding. They also ensure that you as a client get suggestions that are both commercially and legally viable solutions"
