

Budget overruns

Practice area under Social Housing

Building projects can be complex, and budget overruns may have grave consequences for the employer.

We assist our clients from the project development stage, through regulatory approvals and filing of Forms A, B and C, and we assist in identifying potential risks and minimising such risks before they affect the budget for the project.

In case of budget overruns we assist in identifying the possibilities of obtaining financial coverage of such overruns, for instance through insurance coverage and exposure of actionable conducts on the part of a contract partner. In the event of disputes we guide our clients safely through the dispute in close collaboration with our recognised Construction team.
