Désirée is an assistant attorney in our Energy and Infrastructure team. She focuses on legal and commercial aspects of large transactions, and she provides structured and solution-oriented support in connection with complex processes such as due diligence and sales transactions, ensuring that clients receive comprehensive legal guidance.

PRACTICE AREAS

Energy and Infrastructure

Désirée has experience and knowledge from working in the energy and infrastructure sector, and she completed her Master's degree in Law from the University of Copenhagen in 2024. This enables her to address intricate issues with a practical and business-focused approach.

Collaboration is a key part of Désirée's role, and her team is known for their ability to manage and execute large, complex transactions efficiently. Clients value the combined expertise they bring.
