Oliver is an attorney-at-law in our IP and Life Science team.

PRACTICE AREAS

IP Law
Life Science - Regulatory & IP

Oliver advises on the enforcement of IP rights within patent law and trademark law in particular, including injunction proceedings and preservation of evidence proceedings. He has experience in handling large contracts concerning among other things IP licenses as well as transfer of IP and technology.

Oliver further advises clients on regulatory matters in relation to life sciences, foodstuffs and product safety.

Oliver has a law degree from the University of Aalborg.

At Plesner, collaboration is key. Oliver works closely with colleagues to leverage the firm's collective expertise, providing clients with well-rounded and meticulously vetted legal solutions. This team-oriented approach ensures that clients benefit from the highest standards of legal practice.
