Agnes is an attorney-at-law in our Energy and Infrastructure team.

PRACTICE AREAS

Energy and Infrastructure

As a member of Plesner's dedicated Energy and Infrastructure team Agnes advises Danish and international clients in the energy and infrastructure sector on all aspects of their legal and commercial challenges.

Agnes previously worked at the Danish Energy Agency and has gained thorough knowledge of the regulation of solar cells and onshore wind turbines.

Agnes advises on, among other things, transfer of and investments in wind farms and solar parks, development and construction of wind farms and solar parks, investment rounds and raising of capital in various groups and on general train services in Denmark.
