

Real Estate

Practice area

Advice on real estate matters is multi-faceted. In complex transactions and development projects problems can only be solved at the highest level by having a close collaboration across several legal practice areas.

SUB AREAS

Asset Management
Urban Development and Project Development
Social Housing

It is a particular characteristic of Plesner's Real Estate team that we work closely together with Plesner's other specialist teams to solve our clients' projects. Accordingly, we can provide highly specialised legal advice in relation to all parts of the built environment while bearing our clients' general commercial interests in mind in connection with complex projects.

Plesner's Real Estate team is organisationally and physically placed in one practice group with Plesner's Construction team and Plesner's Energy and Infrastructure team. Our practice group, which deals with issues in the built environment, also include sub-teams in Asset Management, Social Housing, Public Law, Environmental Law and Planning Law and ESG.

We believe that this approach to collaboration is unique in the market, and we ensure the best possible utilisation of the synergies in relation to Plesner's knowledge of the value chains in building, acquisition, sale, operation and disputes with respect to all kinds of real estate for the benefit of our clients.

In addition, Plesner's Real Estate team also solves projects in close collaboration with other relevant teams in the practice group, for instance Plesner's Tax, Corporate, Private Funds and Banking and Financing teams.
